

Press Release

Minthis: the final stages of development.

The final stage of construction works at a landmark project in Paphos by Pafilia Property Developers, is in its final stage of development.

In the next 15 months, an authentic holistic retreat called Minthis, set amid rolling hills, ancient olive groves and fragrant orchards, located in the heart of the wine producing region and stretching over a vast area of 5 million square metres of a Natura 2000 protected site, will radiate a new sense of Mediterranean living.

Once complete the facilities and amenities at Minthis will offer a unique environment for its residents and guests, where they can enjoy enriching experiences balancing entertainment, relaxation and adventure. Here you can explore winding nature trails by foot or on horseback and tend to your own vines at the Minthis vineyard. Spend some time at the driving range or on the tennis courts before unwinding at the ground-breaking Wellness Spa. As the sun sets, meet friends and neighbours for dinner and drinks at a range of restaurants, cafes and bars.

Upon completion Minthis shall feature a main square, called The Plateia, a place for community and energy that provides authentic Cypriot hospitality, art and tradition. The lively lounge restaurant is where guests will be able to taste traditional dishes, try home-made bread and pizza baked in the wood-fired oven or enjoy aromatic coffee and real ice cream under the shade of trees in the courtyard. The elegant and sophisticated Infusions Bar will be a meeting point for drinks, where experienced mixologists will create inspired cocktails, using herbs from the local hills. Wine lovers will have the chance to visit the Cava and taste excellent local and international varieties, choosing from the bar's extensive wine list.

The Plateia will also feature boutique shops, a home concept store and art gallery, with carefully selected works - paintings and sculptures - of renowned Cypriot artists. A delicatessen will offer a range of local products from the Minthis estate and the surrounding area, such as honey, olive oil, cheeses, pastries, fruit and vegetables.

By 2020, the project will be complemented by a ground-breaking Wellness Spa, covering 2000 m², next to The Plateia and across from the Clubhouse. The Spa offers a holistic heaven of relaxation and tranquillity with an integrated approach to physical well-being and spiritual balance.

At a beautiful location, in the heart of the resort next to The Plateia, the Wellness Spa and the Clubhouse, there are 44 new luxurious 2-bedroom Suites, which are also currently under construction and due for completion in 2020. They will provide hotel-style 5-star accommodation with an amazing panoramic view of the golf course and the mesmerising mountain range of Troodos.

Minthis is also home to many new sports activities since in the final phase of works will also feature an Equestrian Centre and a Sports Pavillion, complete with tennis courts, basketball courts, mini soccer field and children's playground.

With all these new facilities and amenities, the homes and the lifestyle Minthis offers has successfully expanded its global appeal and the resort has established itself as an ideal destination to live at or to visit. In a landscape of unparalleled natural beauty, dominated by a culture of hospitality and comfort, quality and luxury, relaxation and wellness, action and ultimate tranquillity, Minthis invites you to discover effortless luxury living.
